New Office Hours

Monday 9am – 7pm / Tuesday 7am – 6pm
Wednesday 8am – 6pm / Thursday 9am – 7pm
Friday 7am – 2pm / **Closed: Sat. & Sun.**

Back To School

That's right it's back to school time!!!!

Is your child getting ready to start school for the first time or starting another school year?

Are they due for a cleaning & evaluation or past

due? If so, please be sure to schedule an appointment; as most schools requiring a dental examination form. We do keep extra school forms in the office for your easy convenience.

Insurance For 2014

2013 will be coming to end sooner then we think. We want to make sure all our patients are taking full advantage of their dental benefits. So be sure to contact the office to get into the schedule for your unscheduled treatment plans and utilize your benefits for the year.

Dental Fear?

Sedation is the Answer!

If you fear or dislike going to the dentist, your life could be changed by simply reading this. Oral Sedation dentistry is changing the way many people get their dental care. No longer will you need to be tense or uncomfortable during dental work. The magic of this unmatched comfort is in a little blue pill. The pill is taken an hour before the procedure and additional medication can be given throughout

the procedure as needed to obtain a level of sedation that will allow complex dental procedures to be performed in perfect comfort. Because of the amnesiac properties of the medication, there is little or no memory of the visit. We can maintain a good level of sedation for more, allowing significant in as little as you've sedation the procedure as needed to obtain a level of sedation that will allow complex dental procedures to be performed in perfect comfort. Because of the amnesiac properties of the medication, there is little or no memory of the visit. We can maintain a good level of sedation for more, allowing significant in as little as you've sedation six hour or us to correct dental problems one visit. Once experienced dentistry, you'll never be afraid to go to the dentist again. You'll be sedated just enough to be unaware of the treatment, as if you were sleeping. You'll wake up refreshed, with little to no memory of what was accomplished. Because you are completely comfortable, we can do years of dental treatment in one or two visits. We can replace crowns and dentures, restore sore gums to good health, whiten yellow or stained teeth, fix a chipped tooth, and more. People with very busy schedules can get the dental care they need, easily and quickly. Imagine being able to smile with confidence and chew your food without pain.

Cookies With Santa

West Chester Dental Arts will be having cookies with Santa night on **Tuesday, Dec. 16th, 2014 from 4:30pm – 6:00pm**. Come out to meet Santa and get your pictures taken for a fun filled evening.
