PAGD Cares Free Adult Dentistry Day was held on Saturday, May 17, 2014 between the hours of 9am – 3pm. We offered to adults 18 years of age or older, either a filling, extraction or a cleaning. We ended up seeing 67 patients and did around \$19,700.00 in free dentistry.

We are very happy with the great turnout again this year. We had a wonderful event and are very thankful for

the tremendous amount of staff and volunteers that came out to donate their time to help out. This event helps out the community and those who are less fortunate. Be sure to check our website for upcoming event dates for the 2015 year.

## Invisalign

Interested in Invisalign but not sure if you are a candidate or how the process works? When making the decision to straighten your teeth is much easier when you know that Invisalign is flexible enough to let you live your life the way you want to. With Invisalign, you don't need to worry about the gum and mouth irritation that other traditional straightening methods can cause. With Invisalign, the aligner trays are not only smooth and comfortable to wear, but they're also removable. That means you can continue doing all the things you normally would, from brushing and flossing, to eating whatever you like.

With other devices, brushing and flossing properly can often take up to 30 minutes!

One of the first questions patients usually have is "How much does it cost?" The good news is that most individuals are presently surprised to discover the cost of Invisalign is usually comparable to the cost of traditional metal braces.

We are offering a couple different financing options for Invisalign patients including 24 months interest free financing or 10% discount with the in house dental plan when paid in full. Be sure to schedule your free consult today to find out if you are a candidate and get started.

### FREE NITROUS

*It has helped many people have anxiety-free dental work, and the feedback from our patients was so positive we will continue to offer this indefinitely!*
